Snowboarding and skating aren’t the most extreme sports anymore. Rock climbing is a sport that is becoming more popular. It is exciting and quite easy to learn. People can do it indoors or outdoors. When they are learning, they do it at a sports centre. When they know how to do it, they can go rock climbing outdoors on real rocks. To do rock climbing safely, you need to wear a good pair of climbing shoes or trainers, a helmet, to have a special harness, strong ropes and a qualified instructor. Jake Jackson, a rock-climbing instructor in London, says ‘Many people think that rock climbing is difficult and dangerous, but it isn’t. Just take it slowly, have some lessons and listen carefully to your instructor. Most people learn quickly and easily. When you can climb, the next step is to learn how to go down the mountain.’

1. The article is about one extreme sport.
2. It isn’t possible to do rock climbing indoors.
3. You don’t need special clothes to go rock climbing.
4. Rock climbing isn’t easy to learn.
5. The instructor is fundamental when you are learning rock-climbing.
