I got my mobile phone from my parents for my birthday. I like it very much and I think it's sometimes good to have it in my bag. I always take it with me when I go out so my parents and friends can text me. I don't talk on the phone I just text people. I also listen to music and watch videos on my phone. I always wear headphones because I don't want to make people angry. When I'm bored I usually chat online to my friends, too. When my friends and I go out, we always take selfies and send them to other friends or family. Apart from that, it's got a calculator in it so I sometimes use it to do my Maths homework. I can also use it to surf the Internet and look for information for school or read my emails. I'm not crazy about my mobile phone but I feel good when I have it with me.
